RE: DAM CONSTRUCTION & SOAKAWAY REPAIR

This serves to confirm that we commenced with the construction of the dam at Forest Edge Cottages on the afternoon of the 14th December 2009 and completed the construction on the evening of the 17th December. This included the repairs to the soakaway pit alongside. The dam was fully complete at this date and only required water from rainfall which unfortunately has not been forthcoming in the current drought conditions.

Yours faithfully

Dennis Finch
